

## NL\_Municipalities2008

The file NL\_Municipalities2008.TAB is offered to you by TWIAV – Tips & Tricks ([www.twiav.nl](http://www.twiav.nl)).

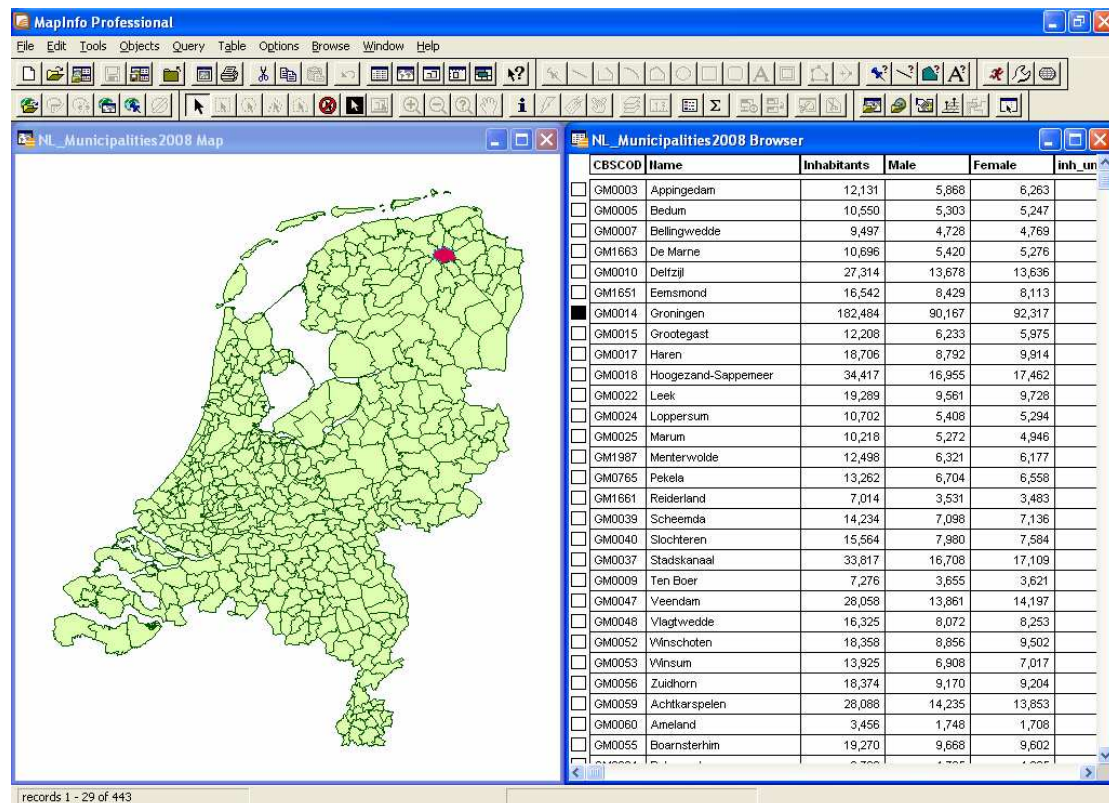

You can use these data to practice with and to get to know MapInfo Professional.

The file does contain a map with all the municipalities in the Netherlands, with statistical data connected to these municipalities (Status: January 1<sup>st</sup>, 2008). The data come from the Dutch national statistical office (Centraal Bureau voor de Statistiek / see their website: <http://statline.cbs.nl/>) and the map – with generalized municipal borders - does come from the Dutch national topographical survey (Topografische Dienst Kadaster).

You can use these data freely, but you have to acknowledge the source.
